

KFZ 100 Steering Wheel/Pedal Lock

Product Data Sheet

Description:

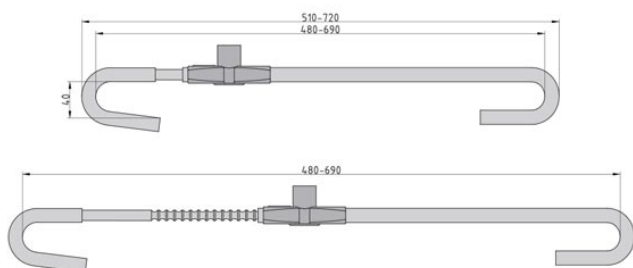

With the universal Steering Wheel/Pedal Lock KFZ 100, you can prevent unauthorised persons from driving away with your vehicle. This effective vehicle anti-theft device can be installed in a few simple steps: hold the steering wheel lock with your right hand and position the hook on the steering wheel. With your left hand, extend the fully adjustable bar to the required length (from 480 to 690 mm) until you can attach the hook to the brake pedal. To remove this mechanical immobiliser, simply unlock it using one of the keys provided. Another benefit of the quick-to-mount vehicle anti-theft device: the KFZ 100 steering wheel/pedal lock made from robust steel is manufactured to a very high quality.

- Suitable for cars, trucks, SUVs, camper vans, etc. – fully adjustable from 480 to 690 mm.
- Includes 2 keys
- Secure anti-theft protection
- Material: robust steel
- Colour: red/black
