

TS 800

Product Data Sheet

Description:

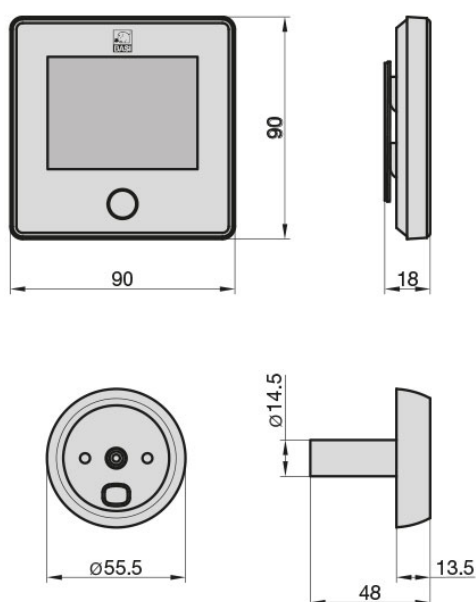

The TS 800 digital door viewer is ideal for house entrance doors and residential entrance doors. The door viewer thus provides more security at home - uninvited guests will have to stay away! The TS 800 has more than just a small viewer: you can see what is going on in front of the door on a 2.8" display, even when it is dark outside. This makes the digital door viewer ideal for children, senior citizens and people with impaired vision or disabilities. In addition, the TS 800 has an integrated doorbell and can store up to 90 photos.

- screen: H90 x W88 x D13, Camera: Ø55 x D13 mm, night vision function (2 IR LEDs), camera angle: 90°, display: 2.8", Sensor: 0.3 megapixel, internal photo memory: 90 photos
- for door thicknesses from 35 - 120 mm
- installation diameter: 14 - 22 mm
- including micro USB charging cable and integrated doorbell
- colour screen and door viewer: silver
