# PBS-400 UNDERSINK DRINKING WATER SYSTEM

The same commercial quality that makes Everpure the overwhelming choice for water filtration in restaurants is now also available for homes. Everpure's exclusive precoat filtration technology combines Micro-Pure and a unique pleated filter membrane to trap particles as small as  $\frac{1}{2}$  micron. This highly engineered design offers the largest filtering surface area, longer filter life and consistent performance.

# High flow rate

Scale inhibitor

# **Exclusive filtration technology**

# **FEATURES**

- ▶ The exclusive precoat technology combines Micro-Pure filtration media and a unique pleated filter membrane to reduce particles as small as ½ micron. This design offers the largest filtering surface area, a longer filter life and consistent performance
- ▶ High flow rate of 8.3 Lpm
- ▶ Scale inhibitor blended into Micro-Pure filtration media
- ▶ Everpure systems reduce contaminants, yet **retain vital minerals naturally present in water**. So the water tastes crisp, clean and refreshing
- Adsorbs common earthy, moldy, fishy tastes, and odors
- ▶ Everpure's metal canister delivers commercial grade durability and quality
- ▶ Built-in water shut off

## CONTAMINANT REDUCTION

- Lead
- Cysts such as Giardia lamblia, Entamoeba histolytica and Cryptosporidium parvum
- Chĺorine
- Taste & odor
- Dirt and cloudiness\*
- Mold and algae\*
- Particulates (oxidized iron, manganese and sulfides)\*

# No extra faucet needed Protects from limescale water-using appliances

Water you can trust

# **BENEFITS**

- ▶ This Everpure undersink drinking water system gives a **great** tasting water all you want, on demand for cost that's far less than bottled water
- ▶ The high flow rate provided by this system avoids to install an extra faucet in the kitchen
- ▶ **Reduces mineral build-up** in water using appliances
- ▶ Ideal for drinking and cooking purposes in your house or apartment
- ▶ **Premium Quality** Taste the difference: everything made with water will taste better: coffee, tea, flavored water mix, juices, soups even ice cubes.

### **TECHNICAL SPECIFICATIONS**

- Flow rate: 8.3 Lpm
- Temperature: 2-38°C cold water use only
- Pressure: 0.7-8.6 bar
- Capacity: 11.356 L (approximately 1 year of water supply, depending on family size and the amount of water you drink)

# GENERAL INSTALLATION / MAINTENANCE REQUIREMENTS

- Space requirement: 51H x 13W x 13D cm including 6.5 cm of clear space under unit for cartridge change
- Replacement of cartridge(s) when capacity is reached, or when flow becomes too slow, but at least annually
