

# DCB10

## Improving the Taste & Odour of Drinking Water

### Doulton® has introduced a high capacity Carbon Block Water Treatment Cartridge into its range of drinking water filtration solutions.

Compatible with the existing range of Doulton® slimline housings, the DCB10 provides a high flow solution for the removal of chlorine, significantly improving the taste and odour of drinking water.

#### Format

10" (254mm) long x 2" (49mm) diameter. 3/4" (19mm) length spigot, 1/4" BSP threaded short mount.

Assembled using NSF approved materials; the DCB10 is a high quality activated carbon block with a sediment pre filter.

#### Manufactured by:

Doulton Water Filters, Newcastle, Staffordshire, ST5 9BT, United Kingdom.
